Ness Turf Announces New Toro Outcross 9060

Kapolei, HI (October 10, 2018) – Ness Turf Equipment, the premier distributor of ag and turf solutions in Hawaii and the Pacific Region, is proud to announce the new four-wheel drive Toro Outcross 9060. The first machine of its kind to be exclusively built for fine turf management, the Outcross's balanced design and four-wheel steer make it significantly more gentle on turf for all your maintenance needs.

The Toro Outcross 9060's hydrostatic drive system and intuitive driving controls like one-action controls, cruise control, and shuttle shifting make it easy to use regardless of experience level. The Outcross can also accept nearly any attachment that connects with a drawbar, pintle, or 3-point hitch, regardless of brand.

Leonard Smith, General Manager, says, "The Outcross 9060 is one of Toro's most versatile machines useful as a spreader, tow, loader, and more. One-time parameter setup for up to 16 attachments keeps jobs simple and efficient for work year-round."

Smith adds, "There has never been a better time to invest in an all-in-one turf maintenance machine."

Contact Leonard Smith at 808.486.8301 or lsmith@nessturf.com for more information on the Toro Outcross 9060.

About Ness Turf

Ness Turf Equipment has been providing ag and turf solutions for over 50 years in Hawaii and the Outer Islands, Guam, American Samoa and Saipan. Ness Turf Equipment offers unparalleled customer service and the best sales, parts and service available for golf courses, sports fields, and state and federal municipalities. Ness Turf Equipment is proud to be part of the Ness family of companies. Every year since 2005, the company has been named one of Hawaii's top 250 businesses by Hawaii Business magazine.
